

# PLAY GIRL

## INSTALLATION: CHILD'S PLAY.

One, two, you're done:  
no need for special tools  
or accessories!

## FLEXIBILITY: VERY IMPRESSIVE.

Different external diameters?  
Different materials?  
Makes no difference!

## ECOLOGY MEETS ECONOMY.

PLAY inspires with environmental  
compatibility, durability  
and cost-effectiveness

## LASTS A LIFETIME. STAYS WATERTIGHT.

Longest possible service life.  
Best possible tightness.  
PLAY makes it possible.

# PLAY. THE UNIVERSAL COUPLING.

# PLAY. THE UNIVERSAL COUPLING.

FOR JOINING PIPES WITH THE SAME OR  
DIFFERENT EXTERNAL DIAMETER

## A WIN FOR EVERY CONNECTION.

- Easy assembly without special tools
- No compensating rings needed
- Made of durable stainless steel
- Pressure tight up to 2.5 bar
- Multiple installation possible

Centric clamping,  
no step between the pipes

Clinch points for better  
corrosion resistance

Double lips on both pipes  
for the highest level of tightness

Divider/spacer in the center  
ensures high-precision installation

Intelligent guides on the inside, thus giving a wide  
clamping range without "warping" in the rubber

PLAY is the simple, safe and fast solution for connecting pipes with the same or different external diameter. Made of stainless steel, the universal coupling is characterized by exceptionally easy installation. Double lips on each side provide tightness security. Other advantages include extreme toughness, high corrosion protection and the possibility of multiple installation.
